

Ob 5. obletnici izhajanja revije Acta medico- biotechnica

Spoštovani bralci,
pred vami je deseta številka revije Acta medico-biotechnica, ki izhaja že peto leto. Prva številka je izšla 1.12.2008. Revija je bila zasnovana kot znanstvenoraziskovalna in strokovna revija s področja medicine in biotehnike, njen ustanovitelj in izdajatelj je Medicinska fakulteta Univerze v Mariboru. Acta medico-biotechnica je tako prva znanstvena revija v izdaji Medicinske fakultete v Sloveniji. Revija je namenjena uveljavljanju in razširjanju znanstvenih spoznanj s področja medicine in biotehnike s poudarkom na interdisciplinarnem pristopu, njen namen je povezovanje kliničnega in raziskovalnega dela. Revija izhaja dvakrat letno v slovenskem in angleškem jeziku, saj je del mednarodnega evropskega prostora. Odziv raziskovalcev na področju medicine in biotehničnih ved je bil za ta prostor izreden. V 10 številkah je bilo skupno objavljenih 85 člankov, od tega kar 45 izvirnih in 13 preglednih znanstvenih člankov.

Ob 5. obletnici revije se v imenu uredništva zahvaljujem vsem avtorjem za poslano prispevke in recenzentom za njihovo delo. Skupno nam je tako v petih letih uspelo ustvariti revijo, ki se uveljavlja v domačem in širšem prostoru. Znanstveni svet za medicinske vede pri ARRS je revijo l. 2011 vključil v seznam revij, ki se upoštevajo pri kategorizaciji znanstvenih publikacij, v letu 2012 pa je uredništvo revije prejelo priznanje »Prometej znanosti za odličnost v komuniciranju« Slovenske znanstvene fundacije za učinkovito, prepričljivo in zanimivo komunikacijo v znanosti, na kar smo v uredništvu zelo ponosni.

Vse to nas zavezuje, da bomo tudi v prihodnje skupaj z vami delovali v začrtani smeri, v smeri objavljanja kvalitetnih znanstvenih prispevkov o rezultatih lastnega raziskovalnega dela s področja medicine in biotehnike in tako prispevali k ugledu Medicinske fakultete Univerze v Mariboru in uni-

On the 5th anniversary of Acta medico- biotechnica

Dear readers,

In front of you is the 10th issue of Acta medico-biotechnica. Founded by the Faculty of Medicine of the University of Maribor as a scientific-research journal in the field of medicine and biotechnics, the first issue of Acta medico-biotechnica was published on December 3, 2008. Acta medico-biotechnica is thus the first scientific journal published by a Faculty of Medicine in Slovenia. The journal is intended for asserting and broadening the scientific findings in the area of medicine and biotechnics, with emphasis on an interdisciplinary approach. Its purpose is to bridge clinical and research work. As a part of the international European community, the journal is published twice a year in Slovene and English. The response of researchers in the field of medicine and biotechnic science has been remarkable. To date, 85 articles have been published, including 45 original and 13 scientific review articles.

On this 5th anniversary of the journal, on behalf of the Editorial Office, I want to thank all the authors for sending us their articles and the reviewers for their work. In these 5 years, we have managed to create a journal that is established both locally and internationally. In 2011, the Medical Science Council of the Slovene Research Agency placed Acta medico-biotechnica on the list of journals that are taken into account in the categorization of scientific publications. In 2012, the Editorial Office of the journal was awarded the "Prometheus Science Award for Excellence in Communication" by the Slovenian Science Foundation for effective, convincing and interesting communication in science, an honour of which we are very proud.

All this binds us to work together with you in the future on a set path in the direction of publishing quality scientific articles on the results from our own research in the field of

verze kot celote. Naj bo to dobra popotnica ob 10. obletnici delovanja Medicinske fakultete Univerze v Mariboru.

V imenu uredništva

Prof. dr. Dušica Pahor, odgovorna urednica

Verba volant, scripta manent.

Izrečeno odleti, pisano ostane.

medicine and biotechnics and thus contribute to the good name of the Faculty of Medicine of the University of Maribor and the university as a whole. Let this be a good prospect on the 10th anniversary of the Faculty of Medicine of the University of Maribor.

On behalf of the Editorial Office

Prof. Dušica Pahor, MD, PhD, Editor-in-Chief

Verba volant, scripta manent.

Spoken words fly away, written words remain.

Poročilo medija Acta medico-biotechnica za obdobje od januarja 2008 do decembra 2012

Report for the medium Acta medico-biotechnica for the period from January 2008 to December 2012

Kronološki prikaz / Chronological overview

28. 01. 2008 dekan MF UM, red. prof. dr. Ivan Krajnc, poda predlog za izdajo lastnega časopisa in imenuje prof. dr. Dušico Pahor za koordinatorico izdaje nove revije Acta medico-biotechnica;
the dean of FM of UM, Full Prof. Ivan Krajnc, PhD, suggested publishing a journal at FM of UM, and names Prof. Dušica Pahor, MD, PhD, as the coordinator of the new journal Acta medico-biotechnica;
31. 03. 2008 senat MF UM sprejme sklep o potrditvi Akta o ureditvi ustanoviteljskih razmerij, ki določa delovanje revije;
the FM of UM senate accepted an agreement to confirm the Act on Institutional Relations, which determines the activities;
04. 04. 2008 na konstitutivni seji se sestane izdajateljski svet in sprejme programsko zasnovo revije, imenuje odgovorno urednico in urednike revije ter strokovno sodelavko;
at the constitutive meeting, the Publishing Council gathered and accepted the programme scheme for the journal, named the Editor-in-Chief, the editors and the professional colleague;
09. 05. 2008 na Ministrstvo za kulturo RS se pošlje Prijava medija v razvid medijev;
the Application for Entry in the Mass Media Registry was sent to the Ministry of Culture of Republic of Slovenia;
22. 05. 2008 pod zaporedno št. 1339 Ministrstvo za kulturo vpiše Acta medico-biotechnico v razvid medijev;
with decision number 61510-143/2008/4 under order number 1339, the Ministry for Culture signed Acta medico-biotechnica into the mass media registry;
01. 07. 2008 v uredništvo prispe prvi članek;
the Editorial Office received its first article;
23. 09. 2008 1. seja uredniškega odbora;
first meeting of the Editorial Board;
12. 11. 2008 2. seja uredniškega odbora, kjer uredniki oblikujejo predlog sestave članov pridruženih urednikov, razširjenega uredniškega odbora, lektorjev in predlog oblikovalca ter tiskarja;
second meeting of the Editorial Board. The editors form a proposal for the member structure of associate editors, extended editorial board, language editors and the proposal from the designer and the printer;
03. 12. 2008 izide 1. številka revije Acta medico-biotechnica;
the first issue of Acta medico-biotechnica was published;
05. 02. 2009 začne se postopek za prijavo znamke Acta medico-biotechnica;
the trademark application procedure for Acta medico-biotechnica began;

15. 10. 2009 prejem Potrdila o registraciji znamke Skupnosti »Acta medico biotechnica« v sliki;
the Community Trademark Registration Certificate of "Acta medico-biotechnica" in figure was received;
30. 11. 2009 prejem Potrdila o registraciji znamke Skupnosti »AMB« v besedi;
the Community Trademark Registration Certificate of "Acta medico-biotechnica" in word was received;
- maj 2010 ureditev spletne strani z elektronsko oddajo prispevkov;
a website was established for electronic submission of articles;
01. 06. 2010 izide 1. številka tretjega letnika revije Acta medico-biotechnica;
the first issue of the third volume of Acta medico-biotechnica was published;
22. 06. 2010 prejem prve odločbe o sofinanciranju domače periodične publikacije s strani Javne agencije za knjigo RS;
the first decision on co-financing of local periodical publications in the year 2010 was received from the Slovenian Book Agency of Republic of Slovenia.
15. 02. 2011 3. seja uredniškega odbora Acta medico-biotechnice;
third meeting of the Acta medico-biotechnica Editorial Board;
- okt. 2011 uredništvo doseže kratkoročni cilj – Znanstveni svet za medicinske vede pri ARRS vključi revijo v seznam revij, ki niso vključene v druge mednarodne bibliografske baze podatkov, se pa upoštevajo pri kategorizaciji znanstvenih publikacij;
the Editorial Office reached its short-term objective—the Medical Science Council of the Slovene Research Agency placed the journal on the list of journals that are not included in other international bibliographic databases, but are taken into account in the categorization of scientific publications;
29. 08. 2012 4. seja uredniškega odbora, na kateri uredniki dopolnijo predlog razširjenega uredniškega odbora za drugi mandat, razpravljajo o sestavi izdajateljskega sveta v drugem mandatu, razpravljajo o problematiki objav v tujih revijah s faktorjem vpliva in o finančni problematiki ter sklenejo, da bodo vztrajali na začrtani poti;
fourth meeting of the Editorial Board. The editors completed the proposal on the extended editorial board for the second mandate, discussed the structure of the Publishing Council in the second mandate, problems publishing in foreign journals with impact factors and the financial situation, and decided to continue on the set path;
- dec. 2012 uredništvo Acta medico-biotechnice postane nosilec priznanja »Prometej znanosti za odličnost v komuniciranju«, ki ga je na slovesni akademiji Zahvalnega dneva Slovenske znanstvene fundacije 20.12.2012 prevzela odgovorna urednica prof. dr. Dušica Pahor.
the Acta medico-biotechnica Editorial Office was awarded the "Prometheus Science Award for Excellence in Communication", which was accepted by the Editor-in-Chief Prof. Dušica Pahor, MD, PhD, at the prestigious academy on the Thanksgiving Day of the Slovenian Science Foundation, December 20, 2012.
